

QUALITY POLICY STATEMENT

Our mission is to meet and exceed customer requirements and expectations with the supply of intelligent enzyme solutions and biotechnological products of highest quality.

In order to carry out this mission we put:

Our Focus on our Customers

At Eucodis Bioscience, we deliver high performance enzyme solutions and biocatalytic processes to our customers in pharma, fine chemicals, food, and cosmetics industries as well as industrial and academic research. Since our customers are our highest priority, we aim to understand our customers' requirements and surpass our customers' expectations. We commit ourselves to best efforts to achieve our customers' trust and confidence in our skills and strengths of tailored solutions and products to build up long-term and sustainable relationships with all of our customers.

Our Focus on our Quality

We are aware of the high quality and regulatory requirements in all applications of our products and services and commit ourselves to these high quality standards. We recognize ISO 9001 as the fundamental Quality Management system in all departments of Eucodis Bioscience, and monitor, plan and implement all measures relevant for such product quality and safety, from defining requirements and actions, monitoring development, production and quality control, considering risks and opportunities, up to supervising changes. Eucodis Bioscience includes suppliers and product and service providers into the Quality Management system and our evaluation program to provide top quality products with full traceability.

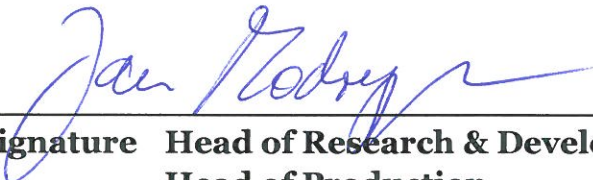

Our Focus on Continuous Improvement

At Eucodis Bioscience we are dedicated to continuous improvement and therefore subject all of our processes to regular reviews in audits based on our Quality Management system and our Quality Policy. With Quality Management lays the responsibility to maintain and further improve our Quality Management system as a means of complying with ISO 9001 and reaching our quality objectives for us and our customers. We are aware of changing and increasing Quality requirements of our customers and authorities, and continuously implement improvements in our products, processes, documents, know-how and our Quality Management system.

Our Focus on our Employees

Eucodis Bioscience staff is the main source for our success, and we ensure that its qualifications meet the high technical and professional requirements necessary in the production of biotechnological products. We create a healthy work environment in order to maintain staff motivated to deliver highest quality in time. In regular meetings and trainings, individual experience and necessary skills are shared to contribute to continuous improvement. Through coaching and education about the Quality Management system, we encourage participation and promotion of quality responsibilities among all employees.
